## PROJECT

### **Property Rental Platform (React JS):**

- The Property Rental Web Site is a fully-responsive React-based platform that allows users to browse rental properties, create an account, log in, and list their own properties for rent.
- The application includes user authentication, property uploads with images, a clean UI, and easy navigation.

### **Food Delivery Website – HTML, CSS & JavaScript:**

- Responsive and modern front-end UI with clean layouts and attractive product cards
- Dynamic Add-to-Cart functionality using pure JavaScript
- Real-time cart updates (item count, total amount, product quantity)
- Increase/Decrease item quantity with automatic price recalculation
- Cart drawer/side panel with animations for a smooth UX
- Menu section displaying products with images, descriptions, and pricing
- Testimonial section, newsletter subscription, and services overview
- Mobile-responsive layout using media queries

### **WordPress Job Listing Website:**

- Job Listing and Recruitment Website using WordPress, designed for both job seekers and employers. The platform allows users to search for jobs, apply online, post job openings, read company reviews, explore job categories, and interact through blogs and a contact section. The website features dynamic pages, custom forms, and a clean, responsive UI optimized for all devices.
- Job Listings for Job Seekers, Post a Job, Company Review System, Job Categories, Blog Page, Reviews & Testimonials, Contact Page , Fully Responsive UI

**Declaration:** I hereby declare that all statements made in this resume are true ,complete and correct based of my knowledge and brief.
